How to fit

As babies come in all shapes and sizes, the standard 0-3 months, 3-6 months, 6-12 months guides, can sometimes not be applicable. Here is a quick, handy guide in how to fit the Splash About Happy Nappy...

THE BASICS:

The New Improved Happy Nappy is unique and is designed to fit snugly around legs and waist.

The first time you use a New Improved Happy Nappy, measure your child's thighs (top of thigh) and tummy (around the belly button) to gauge which size nappy will give the best fit.

SIZE GUIDE:

Once you have baby's measurements, choose the Happy Nappy size that fits best within the measurements using the size guide below:

Age	Weight	Waist	Thigh
S 0-3 months	3-6 kg	34-41 cm	17-22 cm
M 3-6 months	6-11 kg	37-44 cm	20-26 cm
L 6-12 months	10-15 kg	40-47 cm	19-24 cm
XL 1-2 years	13-18 kg	42-50 cm	22-31 cm
XXL 2-3 years	16+ kg	44-52 cm	26-33 cm

Top Tip: You may be between sizes – always go with the size that best fits the thigh measurements.

TO DRESS:

Pull on the Happy Nappy like a wetsuit – if you roll it down from the waist, it's easier to pull up.

Ensure the waist band covers any under nappy and sits around the belly button, this is vitally important, as any exposed under nappy BREAKS the seal.

The rib may roll, this is fine, put your finger at the side seams to check the pressure – as it gets wet, the pressure will reduce yet still maintains a snug fit.

1. Roll down Happy Nappy from the waist.
2. Insert baby's legs and roll the Happy Nappy back up.
3. Baby is ready to swim!
